VIMEC
Easy moving

Silver

Trouble-free access, with the best standards of safety and versatility

VIMEC
Easy moving

The **Silver** platform lift is the ideal solution for assuring the **ACCESSIBILITY** of:

Private premises (banks, restaurants, shops, offices ...)

Public buildings (schools, institutes,)

Homes and residential buildings

EASY, SAFE

Easy installation and safety in operation make the Silver an ideal system for freedom of access to buildings of all types, assuring wheelchair users, independent personal mobility.

EXCELLENT CONSTRUCTION

As an option, Silver's outstanding features include a stainless steel structure, design with attention to every detail and state-of-the-art active and passive safety features, as well of course as the wellproven Vimec mechanical drive system.

The on-board and floor control panels are equipped with keys and can be used easily.

Silver is available with two travel distances: 800 mm and 1,000 mm.

ADAPTS PERFECTLY TO ALL FUNCTIONAL AND AESTHETIC NEEDS

Silver does not require a pit of any kind; the installation can be customized to the existing structures.

BENEFITS:

Vimec Warranty

Distribution network covering all areas

After-sales service

Stainless steel version (on option)

Stainless steel version (on option)

Stainless steel version (on option)

Thanks to its electric lock, the gate is automatically opened when the platform reaches the top.

The standard protected pushbuttons, both on board and for calls at each floors, have keyed controls.

Stainless steel version with gate with grey polycarbonate and 90° landing

Standard version in RAL 7040 painted steel

The details

On-board control panel

Floor control panel

Standard equipment

- Machine bodywork and floor gate in powder coated steel RAL 7040
- Constant pressure controls both on the lift and at the floors
- Emergency stop on board
- Controls on lift with removable key
- 24 V/DC auxiliary circuit
- Electric locks
- Safety gear with safety nut
- Triangle key operated door opening
- Anti-shearing bellows guard

Optionals

- **Stainless steel**
- Automatic door and gate
- Grey polycarbonate guards
- Radio controls
- Remote control post
- Motorized gate and 90° landing

Steppy

Trouble-free access,
with the best standards
of safety and versatility

The **Steppy vertical platform** is extremely versatile; it is available in three different versions according to the travel height and its design, meets all customer requirements, with its variety of platform dimensions. It can be installed either in pre-existing openings or in its own shafts, it is also suitable for outdoor as all the components are water proof.

The versatile, simple, safe platform lift for differently-able access

The Steppy platform lift is the ideal way of assuring access to: Business premises (banks, restaurants, shops, offices...) Public buildings (schools, hospitals, institutes) private homes and residential buildings.

VERSATILE The Steppy platform lift provides unbeatable versatility thanks to its 22 different platform sizes, with lifting ranges of up to 2 metres; full platform stability and a smooth ride are ensured by the soft landing, making this platform lift, one of the jewels in Vimec's crown.

SAFE The user's safety is guaranteed by all the latest active and passive safety systems, including: safety gear, self-levelling system, emergency descent mechanism, and anti-blackout device. Attention has also been paid to every safety-enhancing detail, such as the platform floor that is made by non-slip embossed natural aluminium.

DESIGN AND TECHNICAL FEATURES

The Steppy platform lift's **technical** and **stylish features**, make it a favourite among the best Italian installation engineers with **hydraulic mechanics**, metal or grey polycarbonate enclosure, to improve the **design** and the aesthetics of the lift. Vimec has designed a control on board and a landing **radio control** which makes the Steppy the functional leader in the market place.

References:

more than one thousand Steppy lifts have been installed in Italy and world-wide; some major installations include:

- Ferrara University
- Catholic University, Milan
- Bucharest Airport
- Zagreb University
- U.S. Embassy, Paris

Standard equipment

- Door and enclosures in grey RAL 7040
- Hydraulic power unit
- Constant pressure controls, on the lift and at each floors
- Emergency stop on board
- Controls at floor and on lift with removable key
- 24 V/DC auxiliary circuit
- Electrical locks
- Automatic overspeed safety valve
- Manual descent function for use in the event of blackout
- Automatic levelling at floor
- Key operated exterior door opening

Optionals

- Automatic doors and gates
- Grey polycarbonate enclosures
- Special size platform

PSP: at partners' service

Partner Support Program: a Vimec exclusive for its partners, aiming to supply each of them, all over the world, with a series of personalised tools for developing their business and offering the end user a better and better service. This programme includes an introduction to the concepts of "accessibility", specific classroom training courses and training in the field for sales staff and engineers, analysis and assistance for the development of the most appropriate market strategies, and backup for the organisation of seminars (e.g. for architects, civil engineering firms, etc.) and for participation at trade fairs. Close co-operation with its partners guarantees Vimec constant improvement of its degree of knowledge of the various markets and thus of their varying needs in terms of accessibility, which translates into the design of suitable products. All oriented towards better management of customer relations, and the achievement of full customer satisfaction.

VIMEC Range

A wide range of products dedicated to people: home lifts and elevators, chairlifts and stairlifts, platform lifts and mobile stair climbers.
